Subject: RE: Sampling in June/2016 - Wilcox- please reply
Date: Wednesday, May 04, 2016 7:32:00 AM

Myra, we just received the SAP this week and will have a call about it next week. I am hoping to get it finalized by Mid-June. I also just received notice that we did get some funding for Wilcox. There will be a workplan revision prior to the field work. Because of these, I am thinking that field work will not start until August for EA. However, ERT still has some funds remaining, and we may be able to get them out in the field in July to begin some of the sampling efforts.

I am not certain what sampling would be done with ERT, so I cannot estimate what the needs will be at this time. This should all be clearer next week or the first part of the following week.

Subject: Sampling in June/2016 - Wilcox- please reply

Hello Katrina

You are receiving this message because you provided a projection for the above mentioned site and indicated that the sampling would take place in June.

If the sampling is still scheduled to occur in June, please forward the lab request form (blank form attached), and the sampling plan by May 16th. We need to know the exact week(s) that the sampling will take place.

If you need more time or the sampling will not take place in June, please let me know at your earliest convenience.

Thanks and take care.

Myra Perez
